

NATURAL WONDERS.

Cycle Oregon riders experience a world of natural wonders. We admit sightings of the elusive Oregon cyclelope are rare, but our spectacular 2007 route overflows with other wild attractions. Iconic Crater Lake. The craggy Cascades. Starkly beautiful lava fields. Fish a-jumping and deer a-bounding. Hawks soaring above. Turkey vultures eyeing slow riders. It's all out here, so come join us this September. And keep your eyes alert for that sudden flash of leather and antler... you never know.
